

Seeking to cover all the heating needs, **FARHO** has looked for a way to heat outdoor environments. The best solution is the medium-wave radiation infrared lamp which maintains an uniform, comfortable level of heat in the surroundings.

FARHO-OASI Infrared

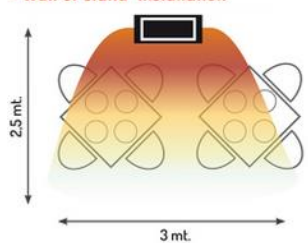

TECHNICAL DATA:

- Double working power 1.000 W / 2.000 W
- Low-glow IR-B carbon heating elements.
- Wall or ceiling mounting brackets kit included.
- Optional mounting post sold separately.
- Mounting brackets allow angular movement from 25° to 45°.
- IPX 5 water splash protection.
- Controlled via remote control, (sold separately), that allows controlling up to 6 different units.
- WHITE or MATTE BLACK colours.
- Powder coated steel finish with aluminium front.
- 230-240 V

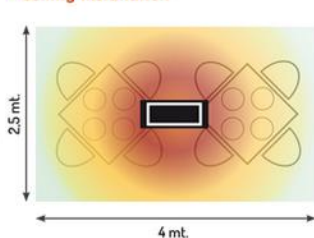

- Wall or stand installation

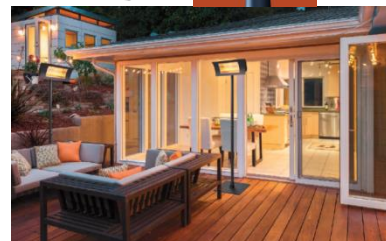

Heated Area: 7,5mq
Installation height: 2,2m (wall installation)
1,9m (stand installation)

- Ceiling installation

Heated Area: 10mq
Installation height: 2,5m
