

Farho's Nova Towel Rails are the perfect complement to everyone's bathroom. Their elegant design combined with high technology give bathrooms that unique touch designers look after and total comfort.

Nova Towel Rails are available in white and chrome allowing each client to choose the one that suits its bathroom's decorations best.

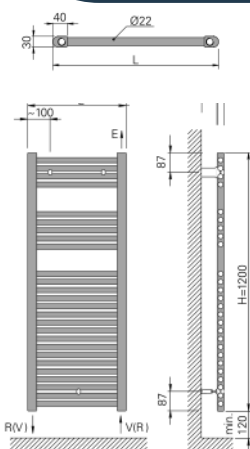

Its digital thermostat allows clients to control the temperature with three different settings: comfort, eco and anti-freeze. These towel rails also include a "booster" that will increase the towel rails temperature quickly during two hours.
