

**Serie Nova: Tower RAILS NOVA
DECO White/Chrome**

Farho's Nova Towel Rails are the perfect complement to everyone's bathroom. Their elegant design combined with high technology give bathrooms that unique touch designers look after and total comfort.

Its digital thermostat allows clients to control the temperature with three different settings: comfort, eco and anti-freeze. These towel rails also include a "booster" that will increase the towel rails temperature quickly during two hours.

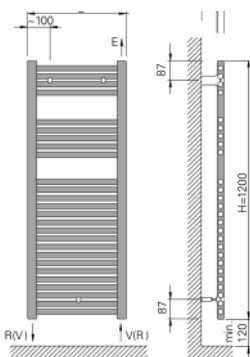

Nova towel rails, just like every other Farho product, are build up with prime quality materials and offer a very easy installation and maintenance process.

Tower Rail NOVA DECO

FEATURES

- Steel body
- Vertical collector 30 x 40 mm, thickness 1,5 mm
